

# Fall Apart

G#m  
Have you ever felt you're walking by yourself

E C#m  
You can't find the light ahead to guide you

G#m  
Feeling so afraid like you're too weak to pray

E C#m  
And all this time hope's been right behind you

F# E  
Calling your name, so turn yourself around

C#m  
He's calling you right now

G#m E  
It's never too late for a heart that breaks

B D#m  
To fall apart in his arms

G#m E  
No matter the past no matter where you're at

B D#m  
His grace will overcome

E D#m G#m  
So go ahead and fall apart in this love

Every day the same, the weight of all the shame  
It's so hard to keep from going under  
But you just got to see that he will never leave  
Lift your eyes he'll never let you go

E  
In this love that never fails  
F#

Leaves you or forsakes you

G#m D#m

It always finds you in the middle of your brokenness

E F#

You don't deserve it, oh but you were worth it

C#m

Come on and just let go
