

# Hold Me Still

C D Em  
Some people try to tell me that you're not good  
C D Em  
That if you really love me there's no way you would  
C D Em  
Let all this tragedy come around  
C  
But you've never let me down

Em C G D  
When my heart is breaking in the dead of night  
Em C G D  
The pain keeps coming with no end in sight  
Em C G D  
The world might tell me it won't be alright  
C Em  
But I know it will  
C D C D Em  
Cause you're the one who holds me still

If I ever have a moment that I doubt your love  
Remind me of the times that you have been enough  
And all the promises you have made  
That you'll never let me go

D Em C  
You've overcome everything inside this world  
D Em C  
There's not a day that goes by that you won't hold me  
D  
And help me through

Now my heart finds comfort in the dead of night

The pain can't take away this hope inside  
I'll show the world it's going to be alright  
I know it will  
Cause you're the one who holds me still
